INDUSTRIES INC.

*An Employee Owned Company*

*"The Premier Steam Cooking Equipment Manufacturer"*

## The Power Plus Green Series

The Power-Plus Convection Steam Cooker with 4 to 12 Gallon Tilting Kettle options delivers high-volume, high-quality results, in the same time for less money.

The Tilting Kettle options also include the potential to operate adjacent kettles up to a maximum of 40 gallons. Larger configurations can be satisfied with an optional Kettle Switch.

This New Complete Steam System from Market Forge will be a fine addition in any kitchen.

The Power-Plus Convection Steam Cooker with Built-In Filter and Water Management System only from Market Forge!

### Standard Features:

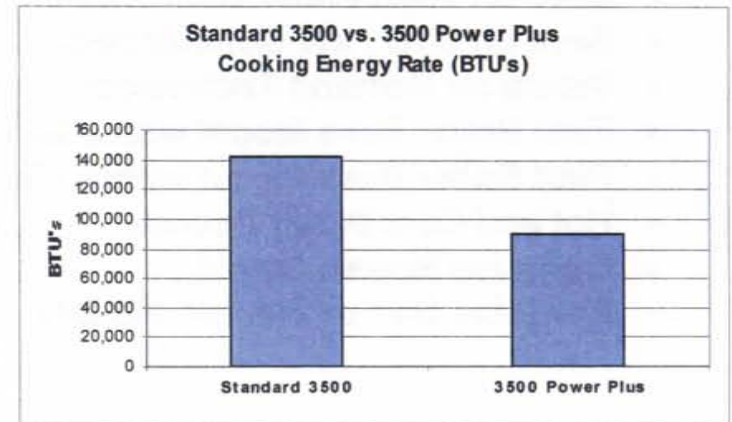

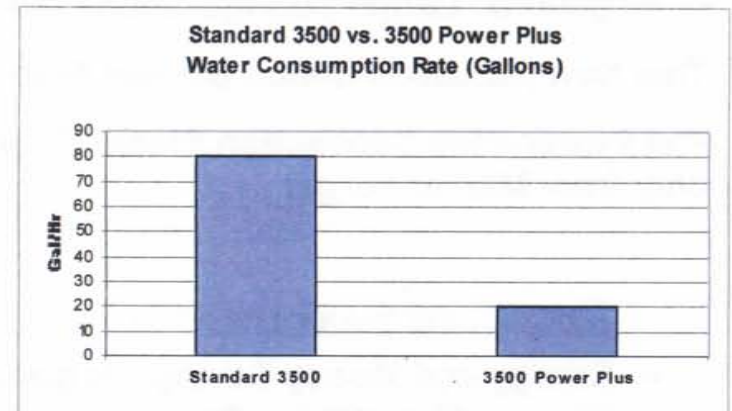

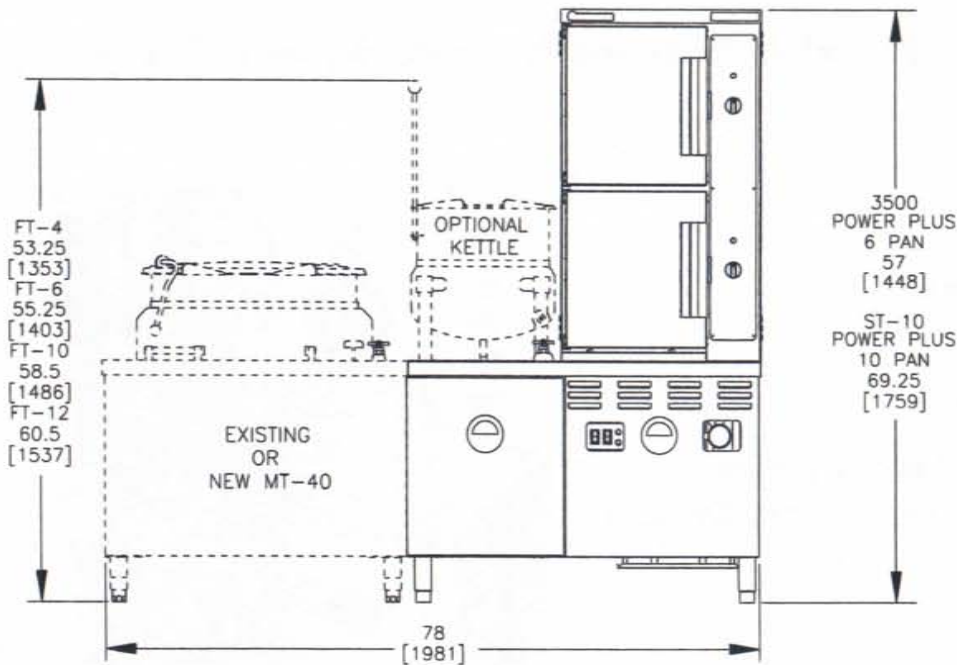

- Energy and Money Saving Technologies.
- Save on Total Water Consumption.
- Save on BTU / kW Consumption.
- Steam on Demand Technology.
- First Boiler Base Model with a Built-In Filter System.
- First Boiler Base Model with a Water Management System.
- Hot and Cold Water Faucet.
- Clean-Up Splash Guard.
- Available Gas or Electric Models.

MODEL NUMBER	100,000 BTU	200,000 BTU	300,000 BTU	24 kW	32 kW	36 kW	42 kW	48 kW
3500	0	40	60	10	20	30	40	40
ST - 10	0	40	60	0	0	10	20	40
3500 POWER - PLUS	N/A	40 *	N/A	10	20	30	40 *	40 *
ST - 10 POWER - PLUS	N/A	40 *	N/A	0	0	10	20	40 *

\* Larger capacity Kettles can be operated with one cooking compartment and an (Optional) kettle switch kit.

The charts shown to the right represent a hour long Heavy Load Potato test per ASTM Standard F 1484. The "Power Plus" delivered the same production capacity while creating a 30% drop in gas consumption. The "Power Plus" also saved 80% of the water consumed by typical steamers in its class.
